

“Every Student Learning Every Day, No Matter What It Takes” is the vision of the Arvin Union School District. There is nothing more important than the safety and education of our students. The district has a comprehensive plan to support all students and accesses multiple funding sources to do so. The Local Control Funding Formula, Title I, and Title III are a set of these funding resources and are reviewed and updated on an annual basis. We understand that decisions for use of funding affect students in various ways. With that in mind, please consider the dates and times listed for your particular stakeholder group (ie: community member, parent, staff) as an invitation to provide your input for our 2017-2020 plans. We welcome your ideas and suggestions as input for our plans.

Sincerely, Georgia Rhett

Assistant Superintendent
